

CURRICULUM VITAE

Name: - Manal Taha Meteab Al-obaidi

Title: - Specialist physician in Assisted Reproductive Technology

Scientific Rank: - Assistant Professor

Address: - Iraq / Baghdad

Tel.: - 00964-7702551899 or 00964-7812266022

E-mail: - manaltaha2001@yahoo.com

Birth and Place: - 1973 Baghdad

Religion: - Muslim

Marital state: - Married (3) children

Husband name and specialty: - Dr. Qais Ahmed, PHD Clinical Biochemistry

Education:-

1997 M.B.Ch.B. Medical collage Al-Mustansirya University.

2003 High diploma (equivalent to MSc.) in Assisted Reproductive Technology

2013 PH.D in reproductive physiology

Professional Appointment

1997-1999 working in Al-yarmok hospital

1999-2000 working in health center

2000-2003 High Diploma Post graduate study

2003-2007 working as specialist physician in consultant clinic of High institute of infertility diagnosis and assisted reproductive technology.

2008 till now working as head manger of the consultant clinic of High institute of infertility diagnosis and assisted reproductive technology.

2010-2013 PH.D post graduate study

2014 till now Head of clinical reproductive physiology department

Title of Thesis: -

- Follicular growth, endometrial thickness and pregnancy rate following treatment of hyperprolactinemia. (high diploma thesis)
- The role of restriction fragment length polymorphyism of INSR and CYP19 genes in predicting the pathophysiology of polycystic ovary syndrome. (PH.D thesis)

Note: The PH.D thesis published as a book in Germany in title (Role of restriction fragment length polymorphism of INSR & CYP19 gene in PCOS) (Scholars' Press).

Training courses

- Training course in clinical diagnosis of sonar in male and female infertility (2004) / Iraq.
- Training course in IVF, ICSI, oocyte retrieval and embryo transfer(2007)/ Syria
- Training course (in vitro fertilization and assisted reproductive technologies) (2009) / Iraq
- Training course (ICSI and verification) (2010)/ Iraq
- Intrauterine insemination work shop (2009) / Lebanon
- IVF work shop (2010)/ Lebanon
- IVF work shop (2010) / Turkey
- Clinical Observation Program for infertility (2013)/ turkey
- DNA sequencing technique by using genetic analyzer (2013)/ Iraq
- IVF workshop (2014)/ Lebanon
- IVF clinical workshop 2016/ Lebanon
- Details that matter in ovulation induction/ turkey, Nov 30th – Dec 1st 2017

Conferences & Seminars

- Environment pollution and its effect on infertility (2009) (lecturer)/ Iraq
- 6th Iraqi Fertility Congress(2010)/ Iraq
- 17th annual meeting of MEFS (2010)/ Syria
- 1st annual meeting for embryo research and infertility treatment (2001) (Researcher) /Iraq
- 18th annual meeting of MEFS (2011)/ Lebanon
- 28th annual meeting of ESHRE (2012)/ Turkey
- Female infertility and its management(2010) (lecturer)/ Iraq
- New Criteria in IUI for Infertile Iraqi couples(2012) (lecturer)/ Iraq
- Update of progesterone therapy (2013)/ Iraq
- IUI and Sperm activation with cryopreservation (2014)(lecturer)/ Iraq
- Hormonal treatment in male and ovulation induction in female (2014) (lecturer) / Iraq
- 30th annual meeting of ESHRE (2014)/ Germany.
- 2015 Annual meeting of AMS/ Egypt.
- 2016 Annual meeting of AMS/ Indonesia.
- IMPART IV EVENTS (2017)/ Abu Dhabi.
- ART academy (2017)/ Lebanon.
- Powerful Presentation Skills (2017)/ Lebanon.
- Scientific conference for postgraduate researches (2017)/ Iraq
- The 4th international conference of Iraqi society of obstetrics and gynaecology (2017)/ Iraq
- Merck Smart Meeting in ART XIII (2017)/ Italy.
- 24th annual meeting of the Middle East fertility society. September, 28-30/2017 (Dubai)
- 2017 Annual meeting of AMS/ Belgrade.
-

Researches

1. Anthropometric, hormonal and biochemical Indices in patients with polycystic ovarian syndrome
2. Influence of thyroid hormone on some serum trace elements in patients with hyperthyroidism.
3. Effect of lead exposure on the development of polycystic Ovary Syndrome.
4. Effects of metformin on the lipid profile in polycystic ovarian syndrome patients
5. Dose INSR gene variation associated with insulin sensitivity in Iraqi women with polycystic Ovary Syndrome.
6. Effect of aromatase gene on polycystic ovary syndrome phenotype in Iraqi women
7. Assessment of IUI outcome for infertile couples with male infertility using sperm max pure versus density gradient techniques.
8. Comparison of the effectiveness of long agonist over the antagonist controlled ovarian hyperstimulation protocols in in vitro fertilization.
9. Determination of IL-1B and IL-35 levels in infertile women with unexplained infertility and polycystic ovary syndrome subjected to ovulation induction/intrauterine insemination.
10. Determination of IL-17 and IL-27 levels in sera of infertile women with unexplained infertility and polycystic ovary syndrome subjected to ovulation induction/intrauterine insemination and their effects on pregnancy outcome.
11. Histomorphometrical evaluation of the changes in umbilical cord vasculature in preeclampsia.
12. Comparison of the Effect of Clomiphene citrate and Letrozole on the Endometrial Parameters of PCOS Women.
13. EFFECT OF DIFFERENT CONTROLLED OVARIAN HYPER-STIMULATION PROTOCOLS ON ENDOMETRIAL RECEPTIVITY PARAMETERS OF ICSI PROGRAMS.
14. FOLLICULAR MYOINOSITOL IS PREDICTOR OF OOCYTE MATURATION AND BEST QUALITY EMBRYOS IN POLYCYSTIC AND NON-POLYCYSTIC PATIENT IN ICSI CYCLES.
15. GENETIC POLYMORPHISM AND SERUM LEVEL OF VASCULAR ENDOTHELIAL GROWTH FACTOR ASSOCIATED WITH FIRST TRIMESTER PREGNANCY OUTCOME IN ICSI PROGRAM.
16. STUDY THE NUMBER OF TRANSFERRED EMBRYOS INCREASE THE PREGNANCY RATES IN FRESH ICSI-ET-CYCLES.
